

## PURPOSE OF RESOURCE

Children's literature is a great way to help students see situations and how other characters would handle them, as they grow and learn how to handle situations for themselves. By placing themselves in the mind of a character they can learn new skills, develop their emotional range, and try out new ideas. This list is not a comprehensive list of all books that should be used, but rather a resource for books currently included in lessons to start with. All books can be found in audio based versions on YouTube.

Lesson Title	Primary Agility	Book Title and Author
